LinkedIn · GitHub · Devpost · Instagram

Software Development Engineering student with hands-on experience across web products, database-backed workflows, data analysis and creative interface design. I build from requirements to implementation and use documentation, prototypes and clear communication to explain the work.

SELECTED WORK

TextHuman

Developed a web writing product with authentication, payment flows, PostgreSQL, transactional email and Cloudflare Workers. Implemented local JavaScript text-editing rules to reduce dependence on external model APIs.

TRAZA FIT · SHIFT

Built a work-integrated learning interface with career pathways, evidence collection, interactive practice and a separate content-control workspace. React, TypeScript, Supabase and Cloudflare.

NorthPeak Incident Management

Requirements, process mapping, SQL data modeling, a Flask/SQLite ticket workflow, dashboard reports and automated tests for a fictional manufacturing-company case study.

Argus AI

Hackathon prototype for streaming IoT anomaly detection: pure-Python EWMA and Mahalanobis detectors, FastAPI, WebSockets and rule-driven alert logging with simulated devices.

Predictive sales analysis

Cleaned 3,636 records, engineered variables and evaluated multiple linear regression with R^2, MSE and RMSE in Python and Google Colab; presented results in an executive format.

Laguna Hawks

Designed a public web experience for a student gravity-racing team, connecting engineering storytelling, team identity and sponsorship information.

EDUCATION

Universidad Tecmilenio

Software Development Engineering · 2025 - present
Third semester · GPA 98.33/100 · 35% academic scholarship

CORE STRENGTHS

Software and web development
SQL and data analysis
Requirements and process mapping
API and cloud integration
Documentation and communication
Creative interface design

Technical foundation

Java · JavaScript · Python · SQL
React · PostgreSQL · Supabase
Git · Linux · Cloudflare Workers

SELECTED LEARNING

Red Hat System Administration I (RH124)
Red Hat · 40 hours · 2026

Java Fundamentals
Oracle Academy · 2026

Introduction to Data Science
Cisco Networking Academy · 2026

LANGUAGES

Spanish · native
English · EF SET C2 Proficient

BEYOND THE SCREEN

Guitar, bass and drums.
Drawing, motion and visual storytelling.
Tecmilenio flag-football representative team.
Black belt in karate.
